

Outdoor Learning and Play

FREE TRAINING from the Eden Project

Eden's Education Team is passionate about creating opportunities for outdoor learning and play in schools.

This summer, to give you a flavour of the training we offer, we are teaming up with play expert Phil Waters (<http://ilovenature.org.uk/>) to offer four free taster sessions across Cornwall and Plymouth.

- **18th June – St. Wenn Primary School, Bomin**
- **22nd June – St. Day Primary School, Redruth**
- **1st July – Mayflower Academy, Plymouth**
- **3rd July – Landewednack CP School, Lizard**

1 - 3 pm: PLAY with Phil Waters

As a taster of 'I Love Nature's' Play in Schools training programme, participants will be sent on a mini quest from which their experiences will be used to think about the role and significance of children's play in the school context. We'll talk about play spaces, resources, adventure and risk. This session will be especially useful for playtime supervisors.

3.30 – 5.30: Outdoor Learning with Eden's Schools team

In this cross-curricular learning adventure we will share ideas and inspiration for taking the core subjects outside. Teachers will leave with enthusiasm, confidence and pockets full of curriculum-linked, ready-to-go activities that are easy to plan and cheap to resource.

Schools have the option to send a Teaching Assistant and a Teacher to either, or both sessions. Places are limited, so book fast to reserve your place!

To take advantage of this amazing opportunity, please contact Gill Hodgson (GHodgson@EdenProject.com) stating clearly:

- 1. The name of your school**
- 2. The names and contact details of the Teacher and TA who would like to reserve a place**
- 3. The session(s) each participant would like to attend (Play and/or Outdoor Learning)**
- 4. The Taster Session school your team would like to attend.**

Our thanks to St Wenn Primary School, St Day and Carharrack Community School, Mayflower Academy and Landewednack CP School for hosting these sessions.
