

SCHOOLS NEED YOUR HELP!

The education sector is under financial pressure and schools are having to make difficult decisions about spending priorities. FundEd is a new programme that equips schools with the resources and skills required to access the extra cash they so vitally need.

We aim to make this programme available to all schools, and are seeking Community Champions to help make it happen! For just £225 you can gift a suite of fundraising services to a local school for a year. This will help them raise thousands locally and access the millions available from foundations, trusts and corporate giving schemes.

As the school's Champion you will be promoted throughout the year to the school, parents and the wider business community, as well as benefitting from national PR activity.
