CAPH School Support Services are Launched

It is with much excitement and anticipation that we are able to announce the launch of the new Support Services being offered to schools.

We want to offer a bespoke service to answer your needs and if you are not sure on direction or feel more help is needed we can provide that as well. A full leadership package is available and we have the associates who will be able to help you develop the self-improving school with challenge and support.

We have one or two courses that are available and they include '[Running A School](#)' that was extremely well received last year and is repeated this year and we can accommodate more than one cohort. We have the [Teaching Assistant programme](#) led by Giles Freathy from The Learning Institute and full [Governance package](#) from Bex Couch and her team at the Diocese of Truro.

Our associates come from current school leaders and highly recommended consultants who are working in schools across the county and beyond. Many of them offer the SIP role and we are happy to continue this if you wish.

We are able to offer support to schools in the following areas:

Leadership

- Leadership development
- Leadership philosophy & approach
- Psychological leadership
- Leadership for growth and change
- Support for new leaders
- Distributive leadership
- SLT development
- Middle leader development
- Strategic and Systems management
- Coaching & mentoring (for leaders and staff)
- Managing staff development
- Data analysis
- Pastoral support for leaders and staff

Format of support

Support is offered through visits from CAPH School Support Associates. Visits can be full day, half day or twilight sessions as required. Payment will be as you go, not through an SLA. If support is required on a termly basis, we can book that in advance at the start of the academic year.

Pricing:

Full day - £450 (+VAT)

Half day/twilight - £250 (+VAT).

Following a visit you will receive a report summarising discussions and an outline of agreed future actions.

Booking process
