The next CAPH Conference at the Eden Project will take place on Friday 20th October 2017, with Dr Andrew Curran as the keynote speaker.

A practicing paediatric neurologist at Alder Hey Children's Hospital in Liverpool, Andrew makes the complicated workings of the learning brain not simple but understandable. And he does it in such a way that everyone can use what they have learned to improve what goes on in school.

When you get to hear Andrew speak, you will not only remember it forever but you will also immediately ask yourself why an understanding of the neurobiology of living, loving, learning and growing isn't on the syllabus for all teacher training everywhere? But then not all neurobiologists speak with the same no-nonsense honesty, depth and breadth of knowledge and raw, unnerving passion that Andrew exhibits when he speaks.

Each CAPH school is entitled to 2 free places, [complete the booking form](#).

Mental Health Masterclass with Natasha Devon MBE

trusted to deliver™

Tuesday 16th January 2018

Advent House, Victoria, Cornwall

09:30 – 12:45

Overview

One in ten children and young people aged 5 to 16 has a clinically diagnosed mental health disorder and around one in seven has less severe problems. Our youth spend more time in school than they do anywhere else except their own home. School is one of the best places for both educators and students to become increasingly aware of mental health, mental health problems and mental health disorders. However it is an area that schools naturally find a challenge to manage and support.

In this Masterclass, Natasha will share approaches to supporting children with poor mental health, promote positive mental health and identify and address those with less severe problems at an early stage and build their resilience.

About Natasha Devon MBE

Natasha Devon MBE is a Writer, Campaigner and Pundit. She is co-founder of the Self Esteem Team & the Body Gossip Education Programme, both working in schools to help teenagers, their parents and teachers with mental health & body image challenges. She has authored several books and has a weekly column in the Times Educational Supplement. In 2016, the Sunday Times and Debrett's named Natasha one of the 20 most influential people in education.
