## **Assessment**

We are delighted to be able to offer schools a comprehensive assessment service for the following needs (please note these are not diagnostic assessments, but allow us to make recommendations for strategies, interventions and formal diagnostic referrals):

- \* Cognitive Ability (IQ)
- \* SpLD, including Dyslexia and Dyspraxia
- \* Emotional/Behavioural Difficulties (including ADHD screening)
- \* Social Skills and Communication Needs (including ASD screening)
- \* Sensory Profile Assessment
- \* Learning Styles, Strengths and Difficulties
- \* Access Arrangements for GCSE/A-Level Exams

Each assessment package (which can incorporate a range of assessments of various different needs) includes:

- \* A comprehensive face to face child assessment, lesson observation and discussion with relevant school staff (Class Teacher/SENCo/SLT)
- \* Parental feedback.
- \* A full written report for the school with realistic, recommendations and manageable strategies.

Additional observations and follow-up support (e.g. TAC & ES meetings, Transition or Review meetings) can also be requested (but will be charged).
