Teaching Tiny Beginnings: How Premature Birth Impacts Learning

Webinar with Caroline Woodman

Thursday 26th February 2026
3.45-4.45pm

Caroline Woodman is the English Lead for Aspire Academy Trust and an ambassador for the premature baby charity 'The Smallest Things'. During this webinar she will explore the impact of premature birth on children's development. Caroline will share her own story and that of her son, Reuben, who was born prematurely. She will emphasise the importance of early intervention, understanding developmental challenges, and the need for educational professionals to be aware of the unique needs of premature children.

Caroline will also highlight the resources available for families and educators to support children like Reuben, advocating for greater awareness and understanding of the long-term effects of prematurity.
