# The ShREC Approach: Enhancing Early Years Interactions for Language and Learning

## Webinar with Julian Grenier

Thursday 21st May 2026

3.45-4.45pm

High-quality adult-child interactions are the cornerstone of effective early years education. In this webinar, Julian Grenier explores the ShREC approach—Share attention, Respond, Expand, and Conversation—a practical, evidence-informed framework that helps all practitioners in the early years foster rich language development and deeper learning.

Discover how small changes in your daily practice can make a big impact on children's communication skills, confidence, and overall progress. This session will provide real-world examples, research insights, and actionable strategies to bring ShREC to life in your classroom.
