Sutton Trust Programmes

UK Summer Schools

Our UK Summer Schools give students the chance to immerse themselves in life at a leading university through academic taster sessions, social activities and tailored guidance on the application process.

Sutton Trust Fulbright US Programme

Students on the Sutton Trust Fulbright US Programme receive in-depth, expert support to explore studying in the United States through UK-based residentials and online experiences that connect them directly with American universities.

Pathways to the Professions

Pathways to the Professions supports students to explore studying and career opportunities in Banking & Finance, Engineering, Law, Medicine and Veterinary Medicine through skill development, academic tasters and work experience placements with leading employers.

Access Apprenticeships

Our Access Apprenticeships Programme supports students to develop the knowledge and skills needed to access top apprenticeships through work experience with leading employers and employability workshops.

Sutton Trust Online

On our digital platform, Sutton Trust Online, students are guided through the knowledge, skills and advice they need to explore their options and apply to, prepare for and succeed at university or in an apprenticeship.

THE SUTTON TRUST

Find out more

The Sutton Trust has been fighting for social mobility from birth to the workplace since 1997. We believe every young person should have a fair chance in life, regardless of their family's income, the school they go to or where they grow up. But today in this country, the opportunity to succeed is heavily shaped by socio-economic background. Our mission is to change this.

How to apply

Our programmes are designed to support students from low socioeconomic backgrounds to access leading universities, apprenticeships and careers.

Students who apply must:

Have always attended a state (not-fee paying) school

Be in Year 12 (England & Wales), Year 13 (Northern Ireland), S5 (Scotland).

When reviewing applications we will also look at a range of social mobility criteria and prior academic achievement to ensure we are supporting those who would most benefit.

Applications for our programmes open at different times of the year.

- **Pathways to the Professions and Access Apprenticeships** applications are open Sept - early Nov.
- **The Sutton Trust Fulbright US Programme** applications are open Nov - Jan.
- **UK Summer School** applications are open Jan - March.
- **Sutton Trust Online** applications are open May - August.
