

Arbor Insight / ASP training

Discover how to get the most out of Arbor Insight as an alternative to the new Analyse School Performance service - for free!

Arbor Insight is a free benchmarking tool that helps you get deeper insight into your school or MAT performance. We're accredited by the DfE to supply ASP data, and our simple, smart benchmarking tool is used and loved by 10,000+ schools around the country.

Join us at one of our free training events this Autumn to find out how to get the most out of [Arbor Insight](#). We're holding training sessions all across England and they're booking up fast - so don't miss out!

What you'll learn

Each training session lasts 90 minutes and covers the following topics:

- **Benchmarking:**

How to use Arbor's reports and dashboards to quickly identify strengths & weaknesses, and share with Governors and SLT. You'll swap reports with other schools to get a fresh perspective on your data.

- **Typicality:**

Digging deeper into the trends behind your benchmarking data, we'll investigate whether this year's results are typical for your school, or specific to one cohort.

- **School Improvement Workshop:**

See how your performance data feeds into planning & writing specific, measurable objectives for your School Improvement Plan

What you'll take away:

1. **Free Arbor Insight portal** with ASP benchmarking dashboards, a Free Performance Summary report and an exclusive discount on your eight Premium reports
2. **A personalised data map** showing the information your school collects and where it sits, so you can streamline your operations, save on IT spend and improve your GDPR-compliance
3. **Direct feedback from colleagues** on your benchmarking data and School Improvement Plan to give you a fresh perspective on your strengths & weaknesses, and help tighten up your objectives for next year
