## Cloud Hosted SIMS

### Why chose ICT4?

- Available anywhere ✓
- Fully managed service ✓
- Automated maintenance and updates ✓
- Eliminate hardware costs ✓
- Reduce costly software licensing charges ✓
- Transparent, simple pricing ✓
- Our cloud solution operates on Microsoft's 'Azure' platform, built for reliability and scale ✓
- Regular Account Management visits and SIMS advice is included with all subscriptions ✓
- ICT4 have many years of experience as an official Capita SIMS Support Unit ✓
- Online and telephone helpdesk allows you to raise support queries with our SIMS specialists ✓

Your school data drives your decisions, informs your strategy and helps deliver a smooth-running school able to focus on what's important - your Pupils. Our Cloud Hosted SIMS package allows you to concentrate on running your school, safe in the knowledge that your data is secure, available when you need it and looked after by dedicated SIMS experts with no need to consider purchasing additional hardware.

### Reliable access from the Microsoft Cloud

One of the main reasons for moving to Cloud Hosted SIMS is to reduce costs - our Microsoft Cloud Hosted Package removes the need for on-site database servers, significantly reducing your cost overhead, licensing charges and energy footprint by removing the need for hardware to be based 'on premise'.

### A fully-managed solution

Whilst schools focus on the consumption of electronic data, they sometimes overlook the need to keep systems secure, up to date and patched, ensuring reliability and resilience to attack. We take care of that for you, delivering 'SIMS-as-a-service', ensuring you spend more time getting value from your data and less time worrying about it.

### Flexible budgeting options and cost savings

Cloud Hosted SIMS can be delivered as a simple 'per user, per month' charge, helping you to budget and adjust to changes in your schools without the need for additional investment in hardware.

Alternatively, for federated, clustered schools or even for Multi-Academy Trusts, savings can be even greater by moving your entire group of schools to our platform.

ICT4 Cloud Hosted SIMS includes all you need to be able to access your data in a secure hosted environment. Just connect your laptop/desktop or mobile device to the internet, download the connection details and you're good to go.
