

## Kehelland School – 2016 Winner of Think BIG

The School Council used the money to buy new science equipment.

### Kehelland Village School

At the moment we have no cool science equipment:

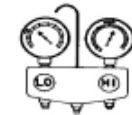

This means no fun experiments!

We could buy:

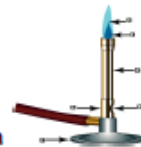

Microscopes and slides for observation of miniscule objects.

Air compressor for studying the laws of motion.

Test tubes for boiling and containing liquids, solids and gasses.

And Bunsen

Burners for heating solids and liquids.

**With £500**

We could make a big difference to our school community of young scientists.

## Lanner School – 2016 Winner of Think BIG

The School Council used the money to buy all weather suits for all children in school, not just reception.

## Otterham School - Winner of Think BIG 2017

The School Council used the money to set up a Community Market Stall, selling local produce.

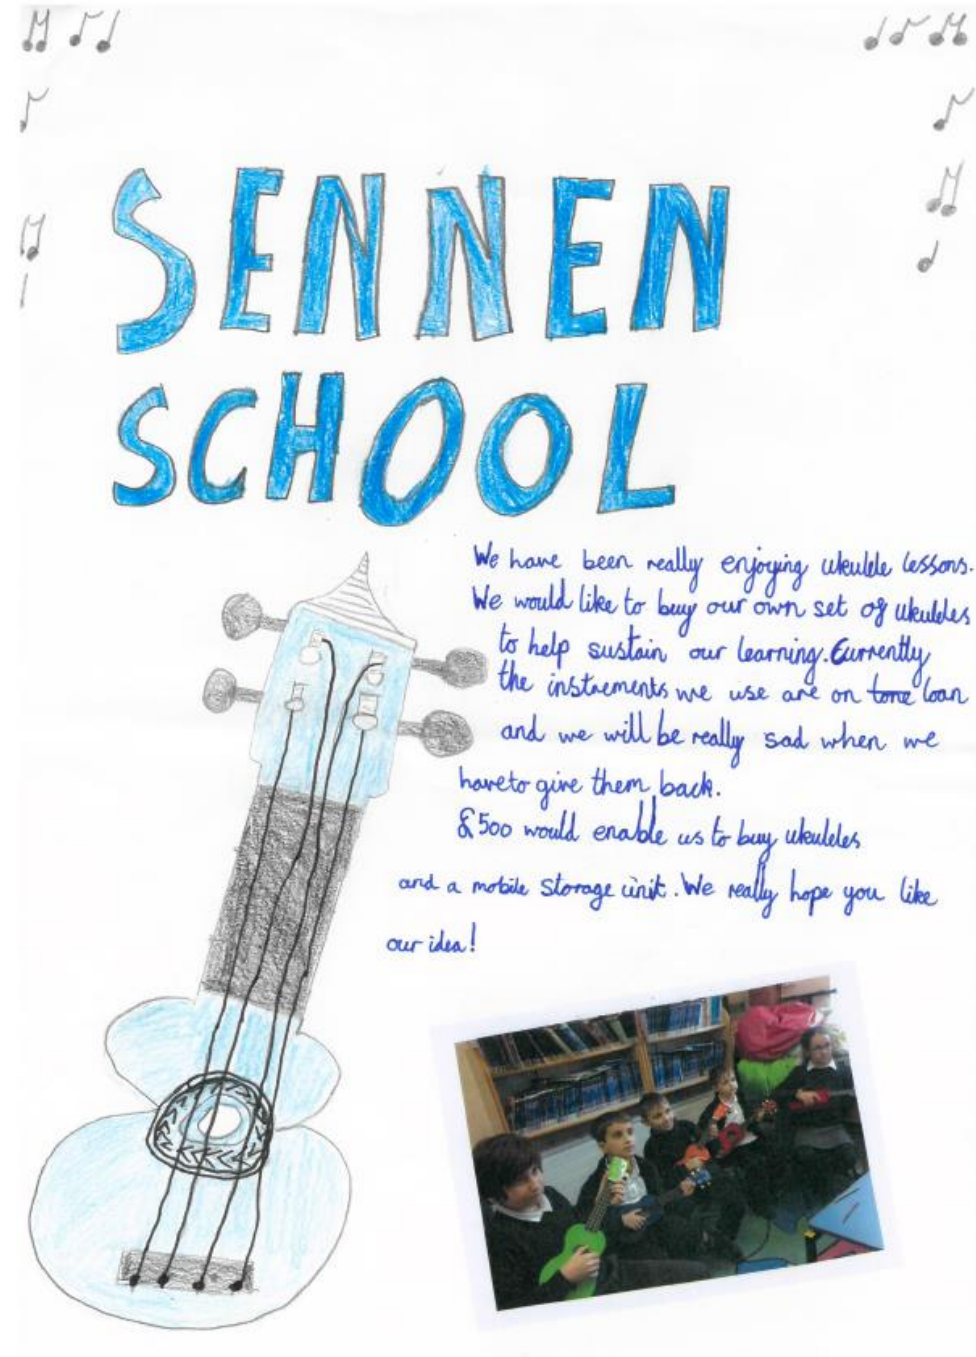

## Carbeile School - Winner of Think BIG 2017

The School Council used the money to create a comfy caterpillar to sit on whilst reading their favourite books.

## Sennen School - Winner of Think BIG 2017

The School Council used the money to buy Ukuleles!

## St Day & Carharrack School - Winner of Think BIG 2018

The School Council used the money to set up an Art Inspiration Station!

## Gwinear Primary School - Winner of Think BIG 2019

The School Council used the money to purchase field research equipment.

### GWINEAR EXPLORES THE GREAT OUTDOORS

Every Thursday one of our classes goes on the adventure to outdoor learning environment. We ultimate visiting our three favourite locations: Godrevey Beach, Gwithian Nature Reserve and Crenver Grove.

We would like some field research equipment, like: binoculars, microscope, anemometer, min max thermometer, rain gauge, nets for ponds, Ph meter, infiltrometer and lots more.

At Gwinear School all children and teachers are fascinated by the outdoors and with this equipment our outdoor learning will become even more exciting.

For many years to come, any aged children will treasure this equipment. It will go on many journeys to the outdoors with our students each Thursday.

This equipment will be much appreciated as it will enable us to explore the outdoors in a more detailed way.

## St Ives School - Winner of Think BIG 2019

The School Council used the money to purchase board games and other equipment to use at school and out in the community.
