WILL YOUR SCHOOL TEACH CANCER A LESSON?

We need every pupil, in every class to unite. To walk, jog or run towards the day when we beat cancer.

We'll send you a free Race for Life Schools pack filled with posters, finish line tape and backsigns and medals for every pupil. All you need to do is pick the date, the place and the distance of your event. We'll support you every step of the way with all of the tips you'll need to hold your own event.

Today's pupils are the generation that will see more people survive cancer than ever before. The more schools that sign up, the sooner we'll reach our goal of 3 in 4 people surviving cancer by 2034. Together, we will beat cancer.
